TECHNICAL SKILLS

AI & Automation	Claude Code, OpenAI, LLMs, RAG n8n, Make AI Workflow Automation.
Building Automations Systeme (BAS)	KNX, DALI, Crestron, Building Management Systems (BMS).
IT Network Management	Cisco Meraki (Firewall & Netzwerk), VoIP, SIP.
Backend-Entwicklung	Python, Django, REST APIs PostgreSQL, Supabase.
Infrastructure & Cloud	Docker, Nginx Google Cloud Platform (GCP) Cloudflare, Traefik.
Web & SEO	WordPress, SEO Automation HTML, CSS, DataForSEO, Email-marketing (Mautic, Sendy, Amazon SES, Brevo).

WORK EXPERIENCE

HEAD OF INFRASTRUCTURE
UMFST - UMCH Medical University - Hamburg

07/2018 - 06/2024 — *Hamburg*

- Led the implementation of **IT infrastructure systems** for a 4,600 m² smart building, including networking, security, and automation.
- Designed and managed **Cisco Meraki network infrastructure and firewall systems**, ensuring secure and scalable connectivity.
- Implemented and optimized **Learning Management Systems (Canvas/Instructure)**, improving performance, usability, and system security.
- Integrated **building automation systems (KNX, DALI, Crestron)** for centralized control of lighting, energy, and smart infrastructure.
- Managed **security systems**, including surveillance cameras and **access control (Interflex Zutrittskontrolle)** for secure facility operations.

Digital Transformation & SEO Project Manager
CLEOPATRA ADVERISING SRL / Neumarkt A.M.

05/2011 - 08/2018 — *Neumarkt A.M.*

- Built and scaled a **web design & digital marketing agency** focused on SEO-driven solutions.
- Developed and optimized **WordPress & Joomla websites** with strong focus on technical SEO.
- Implemented **SEO strategies (on-page & technical)** to increase organic traffic and lead generation.
- Designed and integrated **ERP and automation systems** to streamline business processes.

Plant Manager & Production Management
ROMCAB SA

11/2013 - 08/2014 — *Neumarkt A.M.*

- Implemented **safety and quality management systems**, reducing incident rates by 20%.
- Optimized production costs by **15%** through process improvements and efficient resource planning.
- Led modernization and automation initiatives to improve **production workflows and operational efficiency.**
- Coordinated production activities and ensured compliance with **industry standards and regulations.**

WORK EXPERIENCE

Division Manager / Finance & Reporting Management
MAXBET SA

10/2007 - 01/2014 *Neumarkt A.M., Cluj, Konstanz, Bucharest*

- Developed and implemented **controlling and reporting systems**, improving decision-making efficiency by 30%.
- Managed multi-location operations and optimized **cost structures and financial performance.**
- Led investments and expansion projects, including **multi-million EUR business developments.**
- Designed and implemented **standard operating procedures (SOPs)** to improve operational efficiency.

EDUCATION

Master's Degree- Hospital and Healthcare Administration
UMFST Campus Neumarkt A.M.

08/2020 - 07/2021 *Targu Mures*

- Dissertation Thesis: LMS - Learning Management System for the Management of Medical Universities and Hospitals.

Master's Degree - European Constitution Law
Université de Loraine Nancy

09/2009 - 07/2011 *Nancy*

- Dissertation Thesis: The Common Agricultural Policy.

CERTIFICATES

DCI Digital Career Institute GmbH - Berlin (07/2024 - 08/2025)
Python Backend / Full-Stack Development (Django, PostgreSQL)

Artificial Intelligence Engineer (08/2023 - 05/2025)
EITC-certified in Artificial Intelligence and Machine Learning

Project Management Certificate (01/2020 - 09/2021)
Python Backend / Full-Stack Development (Django, PostgreSQL)

SAFETY MANAGEMENT INSTRUCTOR (01/2020)
Certified in safety standards and industrial risk management

PERSONAL PROJECTS

AI SEO Automation System (08/2025 - Present)
- Developed an **AI-driven SEO automation system** using OpenAI and n8n for keyword research, content generation, and workflow automation.
- Reduced manual SEO workload and improved content scalability.

Full-stack Web Platform (08/2025 - Present)
- Developed a scalable platform using **Django, WordPress integration, and AI services.**
- Implemented API integrations and automation features for dynamic content management.

Containerized Infrastructure System (02/2025 - Present)
- Designed and deployed a **scalable infrastructure using Docker, PostgreSQL, Redis, and Nginx.**
- Ensured high availability and performance optimization for web applications.

SMART Facility Management Automatization (11/2024 - Present)
- Built an automation system integrating **n8n, OpenAI (RAG), and Python** for smart infrastructure monitoring and control.
- Automated operational workflows and improved system efficiency.

Medical AI Agent (09/2024 - Present)
- Developed an AI assistant using **OpenAI, Python, and RAG architecture** for medical data processing and query automation.
